Xerox WorkCentre® 5222 Multifunction System

Productivity, flexibility
and simplicity

WorkCentre® 5222 Multifunction System

Fast copying and printing, advanced scanning and faxing and the power to customise workflows. The modular and easy-to-manage WorkCentre 5222 multifunction system is packed with high-end features to deliver a level of productivity above and beyond your typical office system.

Redefining workgroup productivity

Whether your workgroup needs exceptional copier performance or the added power of printing, scanning and faxing, the WorkCentre 5222 is all about productivity. A host of time-saving features boost your team's efficiency and advanced workflow solutions streamline the tasks you perform every day.

22
ppm

- **Print and copy speeds up to 22 ppm and a scan speed of up to 55 ipm.** Keep up with your busy pace.
- **A robust copier.** Handles your workgroup's volumes and offers convenient features, including ID card copy, which scans both sides of an ID card and prints them face-up on a single sheet of paper.
- **Powerful scanning tools.** Tools that let you back up critical documents — converting them into digital files for easy sharing and archiving while reducing the amount of physical storage space required.
- **Introduce new workflows or automate repetitive processes.** Automatically route documents to predefined locations at the touch of a button within the office environment.

Simplicity in design

With fast deployment and easy support, your WorkCentre 5222 is ready to deliver the performance you need, when you need it. Helpful tools make it easy to maintain complete control — allowing you to keep costs to a minimum.

- **Cost control features.** This includes an internal Auditor, which lets administrators set limits for print, copy, fax and scan functions by user.
- **Confidential data stays private.** Features such as network authentication ensure data remains secure over your network.
- **Xerox CentreWare Internet Services.** Simplifies installation and network administration, providing quick access to device status. Automatic email alerts notify administrators or users of events that require attention, such as low toner levels.
- **PC, Mac or Unix.** The WorkCentre 5222 excels in any environment.
- **MeterAssistant™.** Automatically collects and securely submits your device meter reads to increase billing accuracy.

Powerful scanning solutions

- **Scan to Email.** Lets you route files to email recipients directly from the front panel.
- **Network scanning.** Uses convenient templates to send scans to pre-defined locations.
- **Scan to Mailbox.** Lets you send electronic files to the device's hard drive for easy retrieval.
- **Scan to Home.** Sends scanned images to a pre-assigned "home" destination, such as a user's desktop, for fast routing.
- **Job Flow Sheets.** Simplify everyday workflows by automatically routing documents to predefined locations, including preset email addresses, fax destinations, and FTP/SMB sites.
- **Full compatibility.** Compatible with other Xerox office solutions, including SMARTsend® software for advanced document routing.

WorkCentre® 5222 Quick Facts

- Print and copy at up to 22 ppm
- Powerful scan and fax solutions
- Print up to A3
- Up to 1200 x 1200 dpi print resolution
- Max paper capacity: 2,100 sheets
- Best-in-class security — submitted for full-system Common Criteria (ISO 15408) certification
- Xerox Extensible Interface Platform (EIP)

with two-tray module

Flexibility

Choose a powerful A3-size copier and add printing, scanning and faxing capabilities to optimise your workgroup’s productivity. As your work volume increases, the WorkCentre 5222 is ready to expand to meet your business needs.

Xerox Extensible Interface Platform™ (EIP)

1 Xerox EIP is a software platform inside the WorkCentre 5222 that enables personalised solutions you can access right from the system touch screen. These applications can leverage your existing databases and meet your specific business challenges.

Paper input

- 2 Optional 75-sheet Duplex Automatic Document Feeder (DADF) quickly processes single- or double-sided originals.
- 3 100-sheet bypass tray for specialty media and custom sizes
- 4 Two standard 500-sheet trays are adjustable up to A3
- 5 Add two additional paper trays to increase the total paper capacity to 2,100 sheets.

Optional Finishing

- 6 Space-saving Integrated Finisher for convenient single-position stapling

Comprehensive Security

The tools you need to restrict access, track usage and protect confidential data. Security features include Secure Print, Secure Fax, IP filtering, built-in support for SNMPv3.0, and submission for Full System Common Criteria (ISO 15408) certification.
